

Production Wells East of ST012

Information obtained from the Arizona Department of Water Resources website and imaged records database

Well ID	Date Installed	Well Type	Depth (ft bgs)	Screened Interval (ft bgs)	Reported Water Level	Pumping Capacity (gpm)	Actual Pumping Rate (gpm)	Radius of Influence (ft) *
209402	11/20/2006	Drinking Water	1010	600-980	368	1850	925	6100
595238	3/22/2004	Drinking Water	1000	580-980	399/410	2000	900	4700-4900
560667	9/16/1997	Drinking Water	1060	739-989	405/414	1600	NA	5080
215425	12/14/2007	Drinking Water	1160	NA-1130	448	1600	NA	NA
217041	10/10/2008	Drinking Water	1110	970-1090	450	1200	940	6500

* Radius of influence is the distance from the well in which 10 feet of additional cumulative drawdown over a 5-year period will occur and is based on the pumping capacity
